

# Ride-On Tie Plugger Carrier

- Designed to be permanently mated with chemical tie plugging equipment such as Willamette Valley Co. Spike Fast.
- For use in single rail gangs with either rail removed.
- Crawlers on both sides allow work on either rail without turning machine.
- Provides storage of bulk chemicals. (200 Gallon Totes)
- Two enclosed conditioned cabs with operator seats on both sides.
- Suspended dispense gun in both cabs for simultaneous use, or single operator use.
- 25 MPH self-propelled track travel controlled from either cab.
